APPLICATION AND REQUEST FOR AUTHORITY

Broadband Dynamics, L.L.C. (hereinafter "Applicant"), by its attorney, hereby files this verified application, before the South Carolina Public Service Commission pursuant to its requirement for a Certificate of Public Convenience and Necessity to operate as a reseller of telecommunications services within the State of South Carolina and in support thereof would state the following:

- 1 Applicant's legal name is Broadband Dynamics, L.L.C. and its state of organization is Arizona (see Attachment 1). Applicant has a certificate of authorization to do business in South Carolina from the Secretary of State. (see Attachment 2).
- 2 The principal business address and telephone number of the applicant is:

Broadband Dynamics, L.L.C.
8757 East Via De Commercio, First Floor
Scottsdale, Arizona 85258
Telephone: (480) 941-0444

- 4 The Manager of Applicant is set forth in Attachment 3. Biographical information on Applicant's key management personnel are included in Attachment 4.
- 5 The Applicant's Balance Sheets as of October 31, 2009 and October 31, 2010 and Profit & Loss Statements for the period ending October 31, 2009 and October 31, 2010 are Attachment 5. This exhibit is offered in support of the financial ability of the Applicant.
6. The Applicant respectfully requests that it be exempt from any record-keeping rules or regulations that might require a carrier to maintain its financial records in conformance with the Uniform System of Accounts ("USOA"). The USOA was developed by the FCC as a means of regulating telecommunications companies subject to rate base regulation. As a competitive carrier, the Applicant maintains its book of accounts in accordance with Generally Accepted Accounting Principles ("GAAP"). Neither the FCC, nor the Commission, has required the Applicant to maintain its records under the USOA for purposes of the Applicant's interexchange operations. Thus, the Applicant does not possess the detailed cost data required by USOA, nor does it maintain detailed records on a state-specific basis. As a competitive provider, the Applicant's network operations are integrated to achieve maximum efficiency. Having to maintain records pertaining specifically to its South Carolina local service operations would place an extreme burden on the Applicant. Moreover, the Applicant asserts that because it utilizes GAAP, the Commission will have a reliable means by which to evaluate the Applicant's

operations. Therefore, the Applicant hereby respectfully requests to be exempt from the any USOA requirements of the Commission. In addition, the Company hereby respectfully requests a waiver of 26 S.C. Code & Ann. Regs. 103-610, which requires books and records to be kept in the State of South Carolina, but rather, the Company desires to keep its books and records at its principal place of business.

7. Applicant submits contemporaneously with this application its proposed tariff (Attachment 6) which contains a description of services to be provided, all rules and regulations applicable to such services, and proposed rates for such services.
8. By this application, Applicant hereby asserts its willingness and ability to comply with all the rules and regulations that the Commission may lawfully impose upon Applicant's provision of service contemplated by this application.
9. Upon Commission request, Applicant is prepared to answer questions or present additional testimony or other evidence about its services within the state.
10. The Company hereby respectfully requests a waiver of 26 S.C. Code & Ann. Regs. 103-610, which requires books and records to be kept in the State of South Carolina, but rather, the Company desires to keep its books and records at its principal place of business.
11. The Company hereby respectfully requests waivers of 26 S.C. Code Ann. Regs. 103-612.2.3 requiring the filing of operating area maps and of 26 S.C. Code Ann. Regs. 103-631 requiring publication of directories.
12. Applicant hereby respectfully requests that its interexchange service offerings be regulated in accordance with procedures established for alternative regulation in Order Nos. 95-1734 and 96-55 in Docket No. 95-661-C.

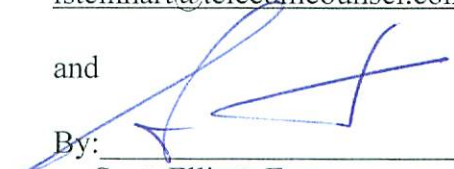

Wherefore, Broadband Dynamics, L.L.C. hereby prays that the South Carolina Public Service Commission grants it authority to provide interexchange telecommunications services within the State of South Carolina and to be regulated in accordance with procedures established for alternative regulation in Order Nos. 95-1734 and 96-55 in Docket No. 95-661-C.

Respectfully submitted this 10th day of November, 2011.

TARIFF FORMAT

A. Sheet Numbering: Sheet numbers appear in the upper right corner of the page. Sheets are numbered sequentially. However, new sheets are occasionally added to the tariff. When a new sheet is added between sheets already in effect, a decimal is added. For example, a new sheet added between pages 11 and 12 would be page 11.1.

B. Sheet Revision Numbers: Revision numbers also appear in the upper right corner of each sheet where applicable. These numbers are used to indicate the most current page version on file with the Commission. For example, 4th Revised Sheet 13 cancels 3rd Revised Sheet 13. Consult the Check Sheet for the sheets currently in effect.

C. Paragraph Numbering Sequence: There are nine levels of paragraph coding. Each level of coding is subservient to its next higher level:

2.1.1
2.1.1.A
2.1.1.A.1

2.1.1.A.1.(a).I
2.1.1.A.1.(a).I.(i)
2.1.1.A.1.(a).I.(i).(1)

D. Check Sheets: When a tariff filing is made with the Commission, an updated Check Sheet accompanies the tariff filing. The Check Sheet lists the sheets contained in the tariff, with a cross reference to the current Revision Number. When new sheets are added, the Check Sheet is changed to reflect the revision. All revisions made in a given filing are

SECTION 3 - DESCRIPTION OF SERVICE3.1 Computation of Charges

- 3.1.1 The total charge for each completed call may be a variable measured charge dependent on the duration, distance and time of day of the call. The total charge for each completed call may also be dependent only on the duration of the call, i.e. a statewide flat rate per minute charge. The variable measured charge is specified as a rate per minute which is applied to each minute. All calls are measured in increments as set forth in the Rates Section of this tariff. Fractions of a billing increment are rounded up to a full billing increment on a per call basis. Fractions of a cent per minute are rounded up to a full cent on a per call basis.
- 3.1.2 Where mileage bands appear in a rate table, rates for all calls are based upon the airline distance between the originating and terminating points of the call, as determined by the vertical and horizontal coordinates associated with the exchange (the area code and three digit central office code) associated with the originating and terminating telephone numbers. If the Customer obtains access to the Company's network by a dedicated access circuit, that circuit will be assigned an exchange for rating purposes based upon the Customer's main telephone number at the location where

the dedicated access circuit terminates. The vertical and horizontal (V & H) coordinates for each exchange and the airline distance between them will be determined according to industry standards.

- 3.1.3 Timing begins when the called station is answered and two way communication is possible, as determined by standard industry methods generally in use for ascertaining answer, including hardware answer supervision in which the local telephone company sends a signal to the switch or the software utilizing audio tone detection. Recognition of answer supervision is the responsibility of the Underlying Carrier. Timing for each call ends when either party hangs up. The Company will not bill for uncompleted calls.
